FIRE CALLS: 20 - FIRE CALLS. Calls for Co alarms, shed fire, smoke in the house.

MUA FIRE CALLS: 21 - MUA FIRE. Structure fires in Grand and Rice Lakes, Fredenberg, and Lakewood.

SERVICE CALLS: 6 - SERVICE CALLS. Mainly Lift assists and power line down.

Training: This year we had many classes from State Mass and Gross Decontamination, EPI pen training, Training on the new radio system. We trained on scene set up, pumping classes pump relaying and Drop tanks. This year we had a auto extrication class in the parking lot we cut up 2 cars. We had a Speaker from St Luke's give a class on cold weather emergencies. We had many training classes on Medical emergencies throughout the year. We also tried the flood the skating rink this year again With not very good luck when we got ice it warmed up and melted it. We tried to get it back but It is hard on the trucks when it got as cold as it did. Your Fire Dept. members spend about 80 hours A year training after working a full time job all day this doesn't include all the hours spent at calls. Our Members are very committed to this and our community. We would like to thank the community For the continuing support of the Canosia Fire Dept.
